

REMARKS

This amendment is being submitted with a Request for Continued Examination.

Claims 1-4 stand rejected under 35 USC §103(a) as unpatentable over McMillan in view of Logan. Applicants have amended claims 1-4 to further distinguish over the cited references.

The references fail to teach or suggest a system or method of limiting access to a web page based upon a schedule. With respect to exemplary claim 1, the references fail to teach or suggest the steps of:

(d) from a schedule, determining an unacceptable period of the day associated with the address during which all access to the web page is prohibited; and

(e) preventing access to the web page if the current time falls within the unacceptable period determined from the schedule.

Applicants respectfully request that the pending claims be allowed.

Respectfully submitted,
